

## **Product Safety Assurance**

Please be advised that each and every Family Games Inc. product conforms to the Consumer Product Safety Improvement Act of 2008 (HR4040) which was signed into law on August 14, 2008.

Family Games Inc. does not manufacture toys or games suitable for youngsters -3 years of age. However, as many of our products are played in households with youngsters, every applicable game and puzzle bears a warning label to remind consumers of the potential danger if small pieces or magnets are ingested. These choking hazards are affixed to the packaging in accordance with Section 105 of the CPSIA.

From its inception in 1982, Family Games America FGA Inc. has used recycled materials, vegetable-based inks, and natural glues and lacquers. Our products pass vigorous safety tests on a regular basis to maintain a high safety standard in accordance with the laws of the United States of America, Canada and the European community. Family Games Inc. products conform to both the ASTM F963-07 and EN-71 of the European standards on toy safety.

We encourage you to visit our 'Product Safety Checklist' to put your mind at ease, not only for the safety of your children, but for your family pets, wildlife, and the environment.

Yvan David  
President
