TOY SAFETY

Toy Safety

Rocket USA Answers Your Questions on Our Product Safety Procedures.

Nothing is more important to us here at Rocket USA than the safety of our products.

Here is why our products are safe:

All Rocket USA products are proprietary and made exclusively for Rocket USA by our own safety-approved suppliers. We do not sell open market products made by anyone else for anyone else.

Testing toys, paints, inks etc. is nothing new at Rocket USA.

We have always rigorously tested our products and material supply chains to meet or exceed legally required safety standards.

Rocket has always used industry approved labeling that include safety warnings and age rating on our toy and children related products.

- [Instructions](#)
- [Certificate for Production prior to November 12, 2008](#)
- [Certificate of Compliance for Lubies™](#)
